# IIITDM-SRIB UI

User Manual -

step-1: Select Dataset

As we have trained our model on two different datasets(Cityscapes and DLRSD) there are two buttons for selecting dataset,on which results need to be shown
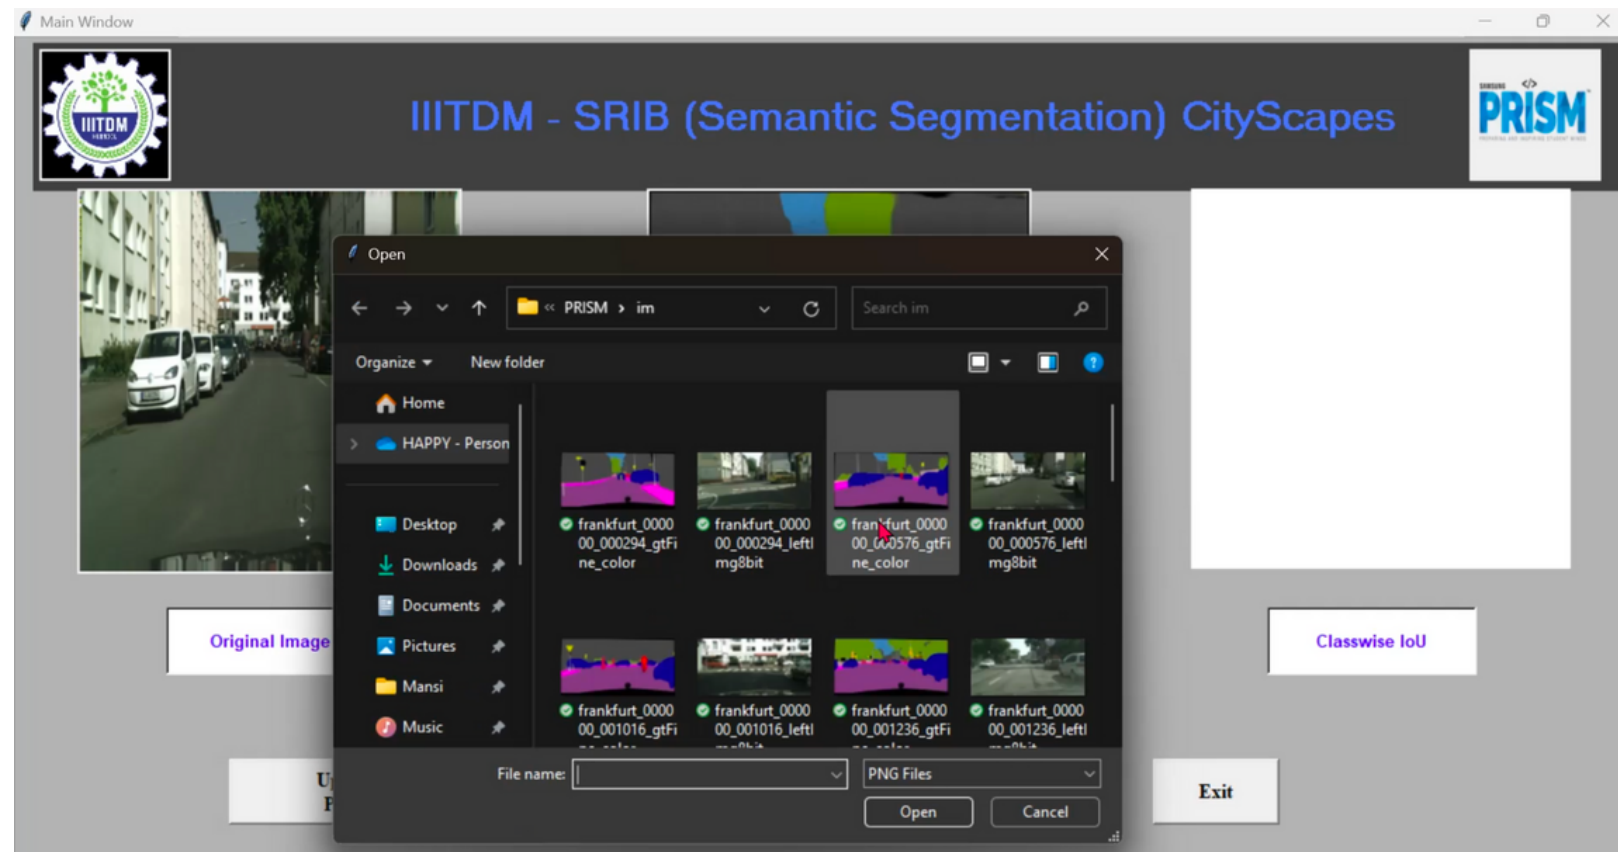

step-2: Select Image

There is a Upload button for uploading a image whose mask we need

Select a particular image

step-3: Select Mask

There is a Upload button for uploading original mask corresponding to image that we uploaded before

Final IOU scores comparing generated mask with original mask
